PREFACE.

Two years have elapsed since the last DIRECTORY OF BIDDEFORD AND SACO was published, and the many changes, both in business and residence, make a new edition very much needed.

We have endeavored to present a trustworthy record of the inhabitants, business firms, public officers, institutions, and the societies of the two cities, and we trust we have succeeded in so doing, to the satisfaction of our patrons and the public generally.

We have been engaged in compiling and publishing Directories for nearly twenty years, and our experience during that time has enabled us to so systematize and extend our business, that from a comparatively small beginning, we now publish a larger list of Directories than any firm in this country. We keep constantly employed a large corps of canvassers, compilers, proof-readers, printers, and binders, and the utmost care is taken in each department to avoid errors, and to present our works in an acceptable manner to our patrons.

Having removed our office from 242 Washington street, Boston, to more commodious quarters in the granite building, No. 22 School street, we shall be pleased to see all of our patrons and friends who may wish to refer to our Directories, complete files of which are always kept on our shelves.

Americans visiting London, England, will find our directories on file at Messrs. Henry F. Gillig & Co.'s, 449 Strand, Charing Cross.

Many thanks are due to those energetic business men who have so willingly aided us in our efforts this year, and hoping we may merit a continuance of the same in the future, we remain,

Very respectfully,

GREENOUGH & CO.

Pepperell Park is a tract of land of a number of acres, situated on the easterly side of the village, and was granted to the town, in 1752, by Sir William Pepperell. The donation of a part consisted of four acres "for building a meeting-house, for a burying-place, and for setting up a school-house, and for no other use or end whatever." A still larger grant was made of land adjoining, by the same grantor, "for a training field," etc. The Unitarian church, now occupied by Rev. J. T. G. Nichols' society, is situated on this grant.

In my new method of mounting mammals and medallion heads, the shrinkage which too often occurs, especially about the nose and feet, causing distortion, is avoided. ARTIFICIAL EYES for birds or animals by the pair or hundred pair. All kinds of specimens cased to order, for parlors or cabinets. Birds and feathers for milliners' use. I am now prepared to teach Taxidermy in all its branches. Having had twenty years practical experience, I think I can give as good satisfaction in this line as any in this country. Persons having birds which they intend to have stuffed, will avoid all unnecessary handling, and deliver them as soon as possible, especially in warm weather, as there is great danger of being damaged so they cannot be stuffed.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse. CHAS. MASON, Commissioner of Patents."

"I have no hesitation in assuring inventors that they cannot employ a person more *capable and trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE, Late Commissioner of Patents."

BOSTON, October 19, 1870. R. H. EDDY, Esq.—Dear Sir, you procured for me, in 1840, I think, my first patent. Since then you have acted for and advised me in hundreds of cases, and procured many patents, re-issues, and extensions, all with such ability and promptitude (always giving your personal attention), that, notwithstanding I have occasionally employed those among the best agencies in New York, Philadelphia, and Washington, I still give you almost the whole of my business in your line; and advise those who ask me to recommend a good solicitor to employ you. Grateful for your efficient services in the past, and your uniform courteous bearing toward me, I remain,
Yours truly, GEORGE DRAPER.

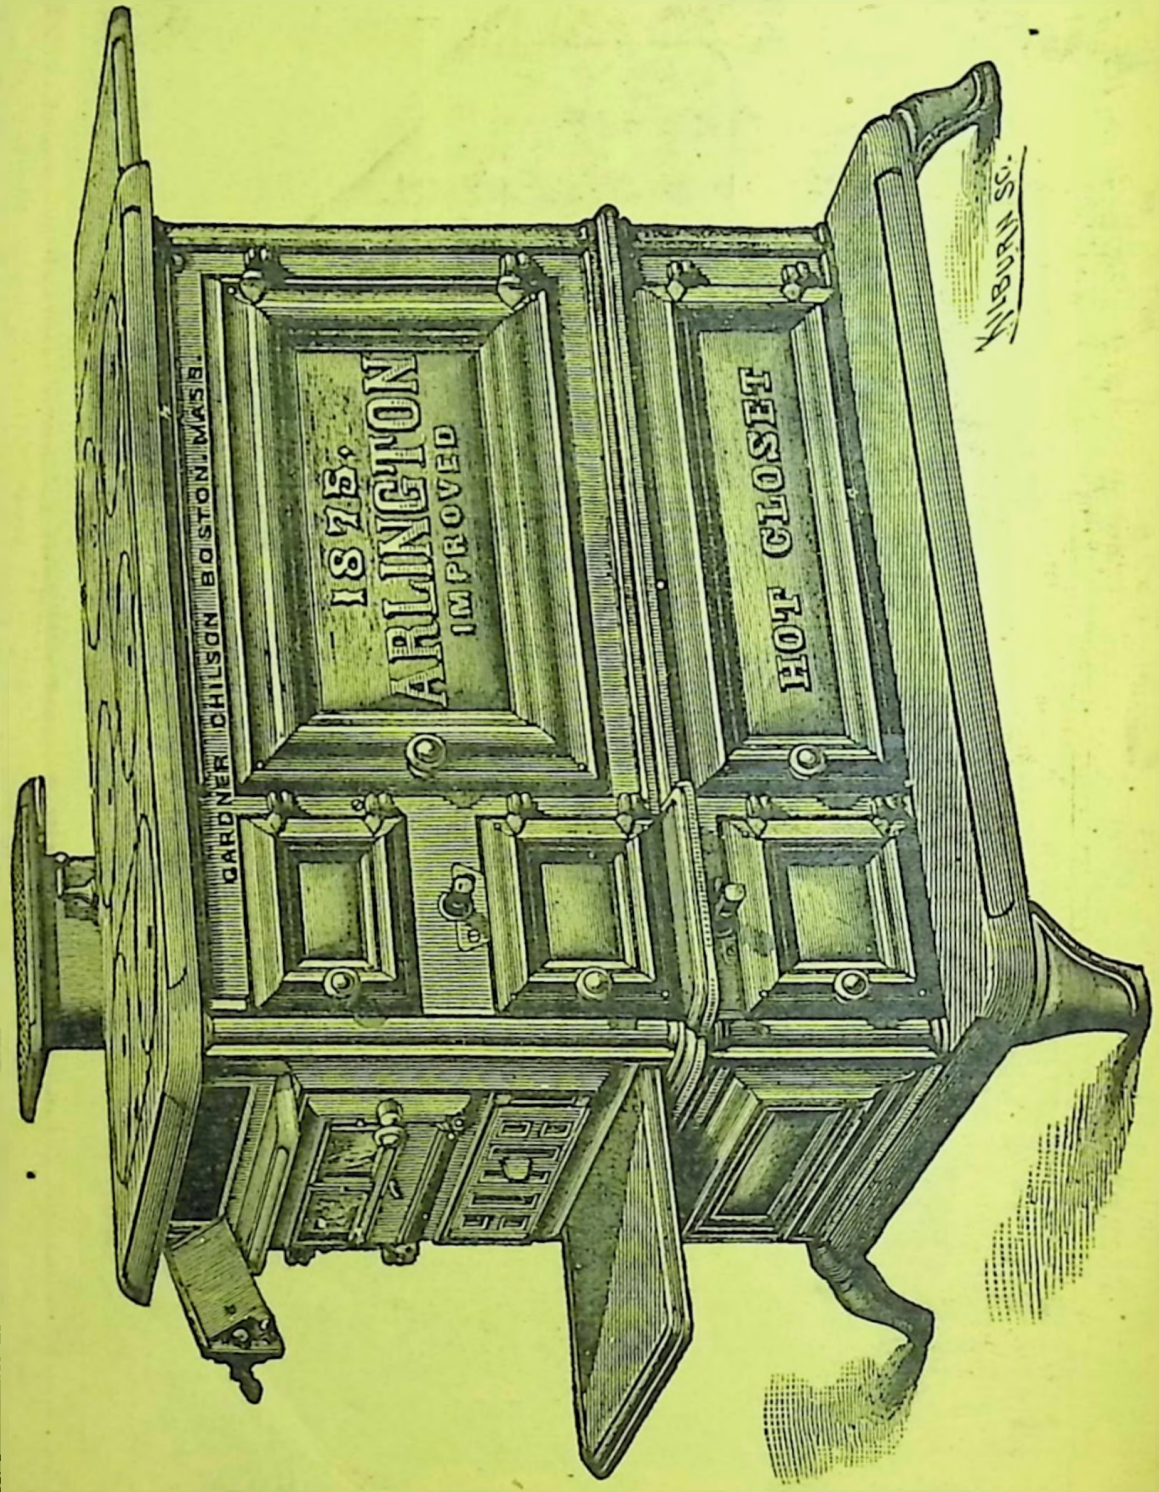
I desire to call special attention of every housekeeper in want, or who ever expect to want a STRICTLY FIRST-CLASS RANGE, to the great improvements over my old pattern Range, in *broiling, heating water, anti-clinker grate, nickel-plated trimmings, towel dryer, four extra shelves*, and extra heavy, fine, smooth castings, of rich and beautiful design, no place for dirt, rust or grease to lodge to keep women scrubbing, but always a clean, surface. This beautiful range has no equal in this country. This will be proved on examination and trial.



I also desire to call the attention of gentlemen, in want of the most substantial and beautiful range for brick setting ever put up in any kitchen, to my ARLINGTON BRICK RANGE, which is acknowledged by all to be the most splendid piece of work, for a range, ever got up. Also the *Chilson Brick Set Range* that has acquired such a high reputation in the use of over ten thousand ranges, in giving the most perfect satisfaction.
